

Stephen Spencer-Wong

(510) 345-9804 sspencerwong28@gmail.com linkedin.com/in/stephen-spencer-wong

Software engineering intern with hands-on experience building full-stack web applications, 3D graphics tools, and AWS-based systems. Strong foundation in algorithms, data structures, and modern JavaScript frameworks. Passionate about building performant, user-focused applications and learning new technologies quickly.

EDUCATION

New York University

New York, NY

Bachelor of Arts, Major: Computer Science, August 2025

- **Relevant Coursework:** Basic Algorithms, Agile Software Development, Operating Systems, Software Engineering, Data Structures, Computer Systems Organization, Data Management & Analysis, Applied Internet Technology
- **Skills:** Java, Python, C, JavaScript, AWS suite, React, Node.js, Express.js, TypeScript, AI, Tailwind

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C, SQL, HTML/CSS

Frameworks: React, Node.js, Express, Next.js, Flask, Three.js

Tools/Cloud: AWS (S3, EB, RDS, Route 53), Git/GitHub, Vercel

Concepts: Agile, Data Structures, Neural Networks, NLP, Artificial Intelligence

EXPERIENCE

End Of An Era

Berkeley, CA

Software Engineering Intern (January 2026 – Present)

- Built an end-to-end plan access confirmation flow in React/TypeScript, enabling users to invite beneficiaries and executors with personalized messaging
- Developed automated release validation and production health check scripts, reducing manual verification effort during deployments
- Standardized 10+ reusable page components across the codebase, improving UI consistency and accelerating future development
- Resolved navigation bugs and improved client-side routing behavior, enhancing overall application stability

The Coder School Berkeley/Tribeca

Berkeley, CA / New York, NY

Code Coach | Camp Coordinator (2019 – present)

- Taught Scratch, JavaScript, Python, and Java to 100+ students, improving coding proficiency and problem-solving skills through personalized instruction.
- Designed personalized lesson plans for diverse learning needs, including ASD
- Led summer camp operations for 100–200 students per season, mentoring new coaches and coordinating curriculum delivery, scheduling, and parent communication.

PERSONAL PROJECTS

ThreeJs 3D Terrain (2024 - Present)

- Developed interactive 3D visualization of perlin noise using **Three.js** and **Vite**, deployed on **Vercel**
- Implemented **Perlin + fractal noise** functions to simulate realistic terrain environment
- Optimized rendering performance by efficiently managing **vertex buffers** and **normals**
- Integrated **React & Vite**, ensuring seamless UI updates and component lifecycle management
- **Live Demo:** stephen-learns-threejs.vercel.app
